

# MPS PARENT SURVEY RESULTS

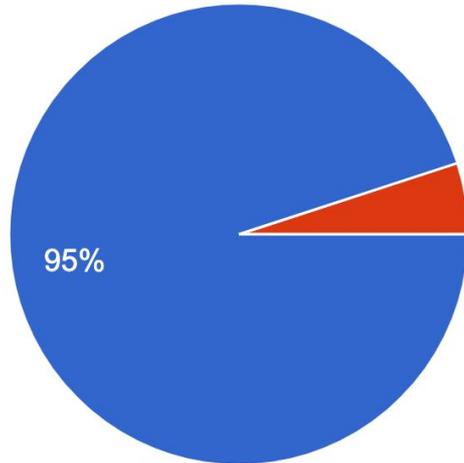

## SPRING 2020-21

# IN-SCHOOL LEARNERS

If your child attended in-school learning, do you feel we kept them safe?

20 responses

- Yes
- No
- My family chose distance learning this year

If your child attended in-school learning, do you feel we kept them safe? If no, please explain:

- MPS didn't follow their own Health & Safety Plan. Classrooms were not closed when there was a positive case. We received an email regarding cases in my children's classrooms, but unfortunately that went into my junk folder. We get remind messages, Facebook posts, and phone calls about everything else, so I don't see why an additional communication method wasn't utilized for such an important notification.

# What did you like the most about our Health & Safety Plan at MPS?

- Masks, classroom dividers, social distancing options and distance learning
- Very easy for the kids to follow
- Hopefully the masks are almost over
- It seemed very well thought out.
- I thought the whole thing was well thought out
- Published, expected outcomes were clear and so was the policies and procedures
- You were able to stay open for the most part.
- That it was fluid and could change as trends changed. I appreciated the masks, but they have shown to be impractical, as kids don't wear them properly.

# What did you like the most about our Health & Safety Plan at MPS (continued)?

- Closure procedures
- It was carried out with good communication
- That you had a plan just in case there was a massive group of individuals who caught covid to go distance. I like that it was proactive and not reactive for the school year.
- That you secluded classrooms to keep our kids in school.
- That they could take their masks off at their desk.
- I liked the detail and the ability to flex when/as necessary. These are uncharted waters and I feel that the changes that needed to be made were made as situations arose.
- All of it

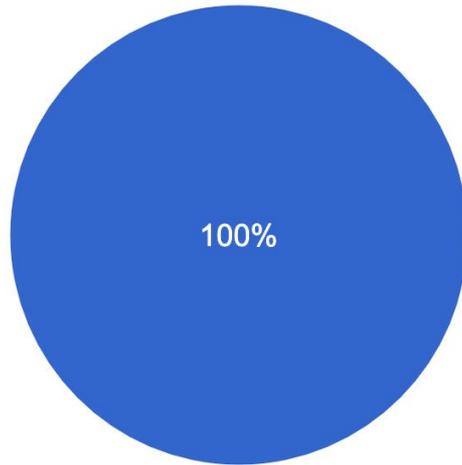

# What did you like the least about our Health and Safety Plan?

- Flexible seating not permitted by teacher for special needs due to Covid restrictions
- Kids having to wear masks!
- Masks, no in classroom visits, activities or events for parents
- Masks
- That it wasn't followed very well.
- Nothing that I can think of.
- That you made them wear masks and removed the children with a close contact when the child wasn't showing any signs of being sick
- Had no complaints

# DISTANCE LEARNERS

Did you feel supported by MPS as your child learned from home this year?

12 responses

- Yes
- No
- Maybe

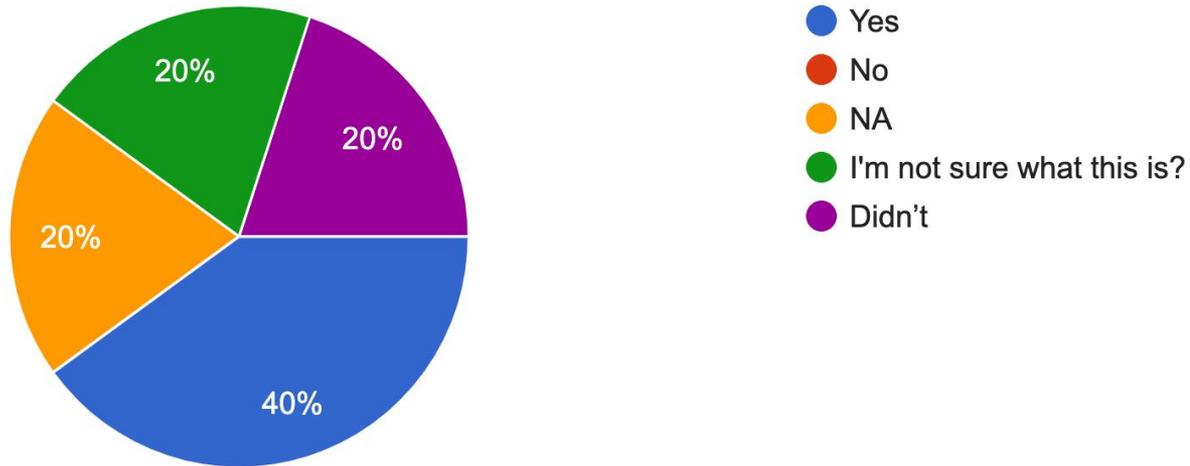

# Do you have additional ideas to help us make distance learning more effective for your child?

- Nope, it went well, thank you :)
- The teachers were great, eager to help the students at home and make it all work. The transition back into the classroom went well. Our girls are loving their mentors that they were assigned. They really look forward to the days they visit with them.
- I saw that my child enjoyed the interaction with the classroom setting while he was distance learning. The one thing I would add only from my personal experience would be use of programs like MS Teams which is similar to Zoom and it has a raise hand feature to call on students that have questions or an answer to the teacher's question.
- No, I feel the teachers did a great job!

# UND MENTORSHIP PROGRAM

If you chose to have your child participate in the social/emotional UND Mentorship program (GEER Grant), did you find it beneficial for your child?

5 responses

# Do you have any additional comments to help us keep your child SAFE and HEALTHY at school?

- I feel things are going good. Think it's a great option for people who want to keep their kids home they can.
- Lose the masks but continue the desk sanitizing, germx and hand washing, even without covid that is a wonderful policy....happy to continue to donate supplies for each of my children's classrooms
- Thank you to all with your work on this crazy school work. It is much appreciated. You've worked hard to make it a safe environment for everyone.
- MPS did a fantastic job staying open and keeping our kids in school all year.
- I think that everyone is doing amazing and I'm grateful for all your efforts to help kids through this year.
